ISCA 2008 Travel Grant Form for non-Chinese students

ISCA 2008 is fortunate to have a significant amount of funding to support travel grants for students to attend ISCA 2008. Funds can be requested to cover transportation and lodging costs (limited to travel and hotel from June 21-25). However, meals and symposium registration will *not* be funded. Student registration fee has been already greatly reduced, thanks to industry sponsors. Please note that ACM/IEEE membership is not required and we hope to fund a significant number of non-author students. Applications must be received by **May 10**. For authors of papers in the AMAS-BT, WARP, and WCAE workshops, an extension until **May 19** is available. Applications must be *received* by the deadline - applicants are encouraged to submit via email.

This form is for students who are not attending a Chinese university. There is a separate travel grant program for Chinese students.

To apply for a grant, fill in the form below and email or snail mail to:

Kevin Skadron (skadron \at cs.virginia.edu)
